Recapture your beauty and health

Winter 2012

## It's time to Restore...

*"The single greatest anti-inflammatory product!"*

Once again, let me take the opportunity to thank all of you for your valued business. Most of you know that I'm constantly striving to improve my services by continually trying out new approaches in product technology. I have been using a product called **Restore** since March 14, 2012. That day was the day I decided to go off the meds I was taking for Rheumatoid arthritis (RA). I have been off ALL meds since then and am absolutely thrilled to say the RA is under better control than when I was taking meds to manage it. I can say I feel better and haven't the pain in the hand joint that was always

slightly annoying.

Even more telling is that my life has been under constant cortisol attacks due to a daughter who has an illness. I am convinced **Restore** is the **single greatest anti-inflammatory product** in the world. What makes it so special is that it repairs the damaged area at the same time. For example, aspirin is a well-known ingredient that interferes with the inflammation cascade thereby reducing inflammation. However aspirin interferes with the body's healing response resulting in delayed healing. Ibuprofen has the same effect, as well as steroids and antibiotics. **Restore** uses **willow herb extract** and other plant based ingredients that calm inflammation

but allow healing the way that our creator set up in the first place. Place 8 drops under your tongue and wait 3 minutes before swallowing. **Restore** is simply **repairing damage** and appears to focus its attention to the most needed area. Feel free to email or text me for a further explanation on this revolutionary approach to wellness.

## Reclaiming Youth

In the next ten years, we may still struggle with weak bones as we approach eighty, however thanks to a better understanding of the biology of aging, we do have **methods to slow down** the effects of the clock.

Just this week, a client explained that her friends are saying she's looking so much younger. The regime responsible for that wonderful compliment is the oral dose of digestive harmonized water she has been taking daily to correct her rosacea condition. There is growing evidence that the body is better described as a hologram rather than "matter." Thus credence for energetic strategies like acupuncture and homeopathy. **Harmonized water** works by communicating medicinal vibrational messages that imprints specific frequencies for a variety of health and skin challenges.

There are currently 18 different harmonized frequency enhanced waters that imprints radio waves for specific conditions. **Osmosis** has a very informative website or feel free to set up a consultation with me .... **Only \$24.**

## Sheila's Top Faves and Raves!

### SWiCH Dermal Rejuvenation Facial...

Chemical peels and laser treatments all require downtime and relies on your skin's ability to repair itself after an injury. Consistent damage to the epidermis may lead to more serious damage in the long run. SWiCH is an effective alternative to chemical peels that triggers this repair process without injury to the skin. This breakthrough Dermal rejuvenation leaves the skin luminous, healthy, clearer and firmer. SWiCH infuses underlying tissues with concentrated doses of ATP by feeding the Krebs cycle of the skin. This is a circadian balance to work naturally with your skin's immune system. Each \$149 treatment consists of 2 facials.... It is proven to lift, tighten, and tone the skin all over the face including the neck, jowls, eye bags and even upper arms. For optimum results a course of 6 treatments is recommended at \$635.
